Education

Meng Software Engineering
1/2026 - Present
National Open University
Lagos State

BSc Computer Science
11/2021 - 10/2025
University of Nigeria, Nsukka
Enugu State

Experience

Freelance Web Developer
1/2023 - Present
Independent Freelancer

- Built and deployed full-stack web applications with React, Next.js, and Node.js for multiple clients.
- Designed REST APIs and managed MongoDB databases for data-driven applications.
- Handled hosting, deployment, and scaling to ensure application reliability and performance.

Junior remote fullstack developer intern
10/2024 - 2/2025
CATA Automated Systems
Ikeja, Lagos

- Refactored legacy frontend codebase (HTML, CSS, Bootstrap), improving maintainability and UI consistency.
- Collaborated with the CTO to implement frontend enhancements and optimize user experience.
- Participated in feature development, testing, and deployment for production web applications.

Projects

MedIntel — Symptom-Based Health Prediction Platform ‹/› ↗

- Designed and built a full-stack web dashboard for tracking symptoms, predictions, and user history.
- Implemented backend APIs to process symptom inputs and return prediction results.
- Built an interactive user dashboard for managing recent predictions and symptom trends.
- Focused on clean UX and data-driven interfaces for clarity and usability.

Review Automation Platform (SaaS Project) ‹/› ↗

- Built a full-stack review automation system with email delivery, tracking, and dashboard analytics.
- Implemented backend logic for campaigns, customer management, and message customization.

Skills
